Write a brief paragraph(s) that highlights strengths and, if applicable, offers constructive feedback.

Keep the tone respectful and focus on the outcome (what was done), not personality. Consider using AI to ensure that the recipient receives the peer review in a positive and productive manner, even if constructive feedback is required.

On the first lab day I was sick and had no way of communicating it. But on Wednesday I was able to show up and Cash was very understanding and gave me a way to contact him about the project. He did a lot on the day I was sick, so I mainly added on to his code and fixed a thing or two. On the last day as I was getting ready for this class, Cash told me that he wasn't feeling well and that he wouldn't be there, so I was more ready to work alone this day. I'd absolutely work with Cash again.
